Dear [REDACTED]

Thank you very much for providing an updated medical certificate.
As mentioned in my email on [REDACTED] we still need more information about [REDACTED].

INFORMATION ABOUT THE BIRTH MOTHER

In the social report it is stated that the birthparents are unknown [REDACTED]

INFORMATION ABOUT THE [REDACTED]

Thank you for contacting ACAM regarding the situation of the [REDACTED]. In DIA we needed more information about why the [REDACTED] were not matched/placed together (principle of subsidiarity)

Please confirm that we understood following information correct:

- [REDACTED]
[REDACTED]
- [REDACTED]
[REDACTED]

And then a few more questions:

· Why did ACAM not consider a Danish family for both brothers [REDACTED]
[REDACTED]
[REDACTED] If possible, see if you can get more information from ACAM.

· Has the French family accepted [REDACTED]? When will [REDACTED] adoption take place?

DIA can't proceed the adoption of [REDACTED] before [REDACTED] is accepted by the French family, we need to know when [REDACTED] will be accepted. This according to Hague convention, and the rules about always placing siblings together when possible.

· Can the families in France and Denmark get information about each other, if both families wishes to?

Thank you very much for all your assistance and please let me know if any questions.

Warmest regards

[REDACTED]
